ENEMY BEGINS A HEAVY BOMBARDMENT

**Day Opens With Heavy Cannonading on
Flanders Front--French Take Prison-
ers Near Locre**

(By Associated Press)
London, May 4.—An intense bomb-
ardment was opened by the Germans
this morning on the Flanders front
from Locre towards the south of Ypres.
There was great activity also on the
southern side in the sector between the
forest of Nieppe and Meteren, the war
office announced today.
The British slightly improved their
position on a minor operation near
Hinges on the southern side of the Yn-
salient, while on the northern front the
French carried out a local enterprise
in which prisoners were taken in the
Locre section. There was also spirited
artillery fighting along the Avre, south-
east of Amiens today.
Heavy fighting along the whole Ital-
ian front in the north is reported today.

CORPORAL SMITH SPOKE AT NAVY YARD

**Officials and Workmen Listen
While He Relates the Work
in the Trenches.**

Corporal Smith, of the American
Army in France, visited the Navy Yard
this forenoon and spoke before a great
crowd of officials and employees of the

Yard, relating in a forceful, convincing
manner the conditions and needs of the
American army on the other side. He
told what the boys over there were
facing and drove home the fact that
the men on this side must back them
up with dollars. At the conclusion of
his talk, Naval Constructor Schlabach
told the men that Corporal Smith was
one of fifty men who had been sent
from France to learn the cause of the
Liberty loan in this country and asked
the men to match those fifty men with
with fifty bond purchasers on the spot.
Fifty names were quickly secured and
then they started for a hundred. Over
this mark the sales went flying and a
new figure of 150 was set. An easily
as the other marks had been hit, the
150 was reached and the crowd squared
away for 200. In the rush they went
over and before stopping 225 bond
subscriptions had been taken. This is
great work. The local yard is well up
towards the mark set and going strong,
and its fine work on the previous loan
will be duplicated in the present loan.

KEEPING MAINE BUSY.

**Country Goes \$6,888,900 "Over the Top"
and Later Figures Expect to Raise
Total to Over Three Billion--All of N.
E. States Exceed Their Quotas**

DISAPPROVES OF DEATH SENTENCE

(By Associated Press)
Washington, May 4.—President
Wilson today disapproved of the sen-
tence of four American soldiers in
France ordered to be shot. Two, Clou
Ledyon and Stanley G. Fishback
were given three years confinement.
Privates Forrest Sebastian and Jesse
Cook were granted full pardon.

NAMED AS DIRECTOR OF WAR FINANCE

(By Associated Press)
Washington, May 4.—Clifford Leen-
ard of Chicago today was named by
President Wilson for a two year term
as director of the war finance cor-
poration in place of Allen B. Forbes
of New York who declined appointment.

LOCAL LIBERTY BOND SALES \$650,000

Portsmouth had up to Friday night
subscribed over \$650,000 for Liberty
bonds, according to Chairman Tobey.
This amount will be exceeded today.

Read the Want Ads every day.

(By Associated Press)
Washington, May 4.—The third Lib-
erty loan has been over-subscribed by
\$6,888,900. Later figures are expected
to raise the total much more in excess
of three billion.

(By Associated Press)
New York, May 4.—With subscrip-
tions still pouring in, New York went
"over the top" in the Liberty loan
campaign. At noon today the mini-
mum quota of \$300,000,000 had been
exceeded and millions were still to be
tabulated.

86 NAMES ON CASUALTY LIST TODAY

(By Associated Press)
Washington, May 4.—The casualty

Those killed in action were Privates
Charles Butler, Los Angeles, Cal.; Al-
bert Lenz, Gettysburg, Pa., and John
P. Nacolewski, Picesburg, Pa.

BRITISH HAVE LOST NEARLY 250,000 MEN

(By Associated Press)
Washington, May 4.—British losses
in men killed and wounded, captured
and missing since the German offensive
began on the western front are esti-
mated by the British military mission
here at nearly 250,000 men.

In a statement today giving this
calculation, the mission said that
everything indicated that the offensive
would be resumed by the British at
most immediately, and that if the
brunt of the attack was borne again
by the British, the situation would
become serious unless amply sup-
ported by reserves.

Boston, May 4.—An over-sight gap
of over \$21,000,000 was tabulated to-
day, putting every state in New Eng-
land over its quota. The total for New
England today was \$284,273,000.

(By Associated Press)
Boston, March 4.—The report by
states was: Massachusetts, \$179,373,-
000; Maine, \$15,712,000; New Hamp-
shire, \$12,859,000; Vermont, \$7,06,000;
Rhode Island, \$25,341,000; Connecti-
cut, \$43,511,000.

ing plant was injured there this morn-
ing while engaged in handling some
heavy timber when he was struck by
a large piece being moved by a derrick
and knocked from a staging to
the ground. He sustained a bad frac-
ture of the left knee and was cut and
bruised considerably about the face.
He was removed to the local hospital
for treatment.

250 SECTION HANDS SUBSCRIBE TO LOAN TO EXTENT OF \$6,000

A good bit of work in the interest of
the Liberty loan is worthy of mention
on the part of 250 section men of the
Boston & Maine, who subscribed a
total of \$6,000. These men are under
the supervision of Track Supervisor
D. J. Morrison, who has interested
himself to a great extent in the work
in his territory, which includes Ports-
mouth to Rhyby on the Eastern route,
and Newfields to Rhyby on the Western
route.

In many cases the men were not
even approached in the matter. Forty
\$50 loans and two \$100 loans were
taken through the railroad, while the
local banks issued seventy \$50 and
three \$100 loans to them. The loan was
also loaned with great success among
the trackmen on the other divisions of
the system.

TRIED TO FREE GERMAN PRISONERS

**Guard at Fort McPherson, Ga., Foils At-
tempt at a Wholesale Delivery of
Enemy Aliens Interned There**

(By Associated Press)
Atlanta, Ga., May 4.—An attempt at
a wholesale delivery of the German
prisoners at Fort McPherson was
foiled late yesterday when the guards
discovered a fifty foot tunnel leading
under one of the prisoners barracks
towards the double wire fence enclos-
ing the prison camp.

M'DONALD HAS MADE SEVERAL TRIPS ACROSS

John D. McDonald of the navy is en-
joying a week's leave at his home in
this city. He is attached to the U. S.

S. Aeolus, one of the former German
ships now of the American transport
fleet. McDonald, since his enlistment,
has made three trips across with
troops, and one one trip his ship was
rammed by a convey 600 miles off the
United States coast, and it was neces-
sary for the ship to put back to port.
So far he has experienced no direct
trouble from the submarines. Mc-
Donald was a former employee of the
Morley Batten Company and one of
the fast men of the company's had
team in the local league.

**You Will Appreciate the Value of Wool More
and More as the War Goes On**

In speaking of wool we mean pure wool fabrics, unadulterated with cotton or
shoddy. The market next fall will be full of garments made from fabrics with
only a percentage of wool, while all wool fabrics will be at a new level of high
price. It's the best of economy to buy suits and coats now—prices are lower than
the future predicts, and more important is the fine quality of all wool fabrics used
in these. There are remarkably pretty suits of serge and gabardine at prices, \$25,
\$27.50 and \$28.50. Three grades in ton, navy, brown, grey and black, \$35, \$42
and \$50. Ladies' spring and summer coats, \$16.50, \$25 to \$75.00.

WRONGFUL USE
OF RED CROSS

The Portsmouth Chapter's attention has been called to the careless or wrongful use of the Red Cross name or emblem about this city in the collection of money not for the Red Cross and the Eastern Headquarters have notified the Chapter that they must stop all such use of the Red Cross.

It is a federal law that the use of the name of the Red Cross or the emblem cannot be used except with permission, and the District Attorneys have been instructed to prosecute every case called for, without attention.

Where the name of the Red Cross or the emblem is used for the Red Cross benefit, permission must be first secured from the Executive Committee of the local Chapter. There has been a growing tendency on the part of some people to be careless to say the least in the use of the Red Cross and hereafter all such cases will be called officially to the attention of the Chapter. This is an important matter and people no matter how well meaning should understand that they are breaking a federal law. This applies to the use of the Uniform in anything other than actual Red Cross work or with permission.

THREE WOMEN
PARLIAMENT
CANDIDATES

(By Associated Press)

London, May 4.—There will probably be three women candidates for seats in parliament in the next general election. In addition to Miss Nina Boyle who intends to contest the Kelghley division, the Independent Labor party has added the names of Miss Margaret Bondfield and Mrs. Philip Snowden, wife of Philip Snowden, member of parliament, to the list of available parliamentary candidates.

Miss Nina Boyle has notified the Home secretary of her effort to secure nomination as parliamentary candidate for Kelghley and has asked whether it is not permissible for women to stand for parliament. It is not equally admissible for women to be sworn in as police and whether it would not be possible to challenge any arrest made by these women.

Miss Boyle says "His reply to that question is that the answer can only be determined authoritatively by a court of law. That is just how parliament always evades responsibility for the laws it makes and whenever the laws are brought into question, without exception it throws its responsibility on the law courts."

OLD AGE A CRIME!

Some people are young at 60—red checked, ruddy and vigorous. Others are old at 40—faints beginning to stiffen up a bit; step beginning to lag and lose its springiness; occasional lurches of pain in the back, feet without cause, and possibly a twinge of rheumatic pain.

In most cases these are the danger signals to warn you that the kidneys are not properly doing their work of throwing off the poisons that are always forming in the body. To neglect these natural warnings is a crime against yourself. If you have these symptoms you can find prompt relief in GOLD MEDAL Haarem Oil Capsules. For more than 200 years this has been the recognized remedy for kidney and bladder ailments.

GOLD MEDAL Haarem Oil Capsules are imported direct from the laboratories at Haarem, Holland. Get them at your druggists. Do not take a substitute. In boxes three sizes.

Lift Corns Out With Fingers
Don't Hurt a Bit—Magic!

Few drops stop soreness, then the corn or callus lifts off. No humpbug!

This tiny bottle holds the hurt one particle. You feel no wonder of wonder. It contains an almost magical drug called freezone. It is a compound made from ether.

Apply a few drops of this freezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you just lift it off with the fingers. It doesn't hurt one particle. You feel no pain when applying freezone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of freezone. This will cost but a few cents but will positively rid you of your suffering feet of every hard corn, soft corn, or corn between the toes, or calluses on bottom of feet. Just think! Corns fall off!

typewriter and clerk-bookkeeper will be held in this city May 25, for filling also be held on the same date for clerk positions in the various branches of the Government Service in New England, particularly in the Ordnance Inspection offices which have been established in connection with the Gov-

PERSHING'S VETERAN WARMLY GREETED

Big Liberty Loan Rally and Reception to Corporal Smith--Several Thousand People Present

This city gave Corporal Smith one of the Gen. Pershing veterans, an enthusiastic reception on Friday evening when he spoke to three large crowds, once on the Square and at the Colonial and Olympia theatres.

The main rally was held on the Square and there were several thousand people present to hear him. Previous to his talk the Pueblo Naval band gave a good concert and they assisted in the other meetings while ten men from the ship, two marines and eight sailors, assisted in taking subscriptions.

Corporal Smith, who was in Manchester during the day and who came down over the road with a committee consisting of Maj. F. W. Hartford, John K. Bates and J. D. Conner, had supper at the Warwick Club and he was escorted to the stand by Mayor S. T. Ladd and Chairman F. M. Ste.

Dr. John H. Neal presided and he delivered one of his forceful opening talks, in which he urged everybody to buy bonds, to buy until it was a sacrifice to pay for them and not until they would they be doing their duty. He introduced Corporal Smith who received a great reception and three cheers from the crowd.

He wore the steel helmet and regular army uniform and looked brown and fit for anything physically, being an excellent type of a soldier. He made a short talk in which he explained some of the work that is being done by the boys in the front line trenches and told of the raids that had been made by the Germans, the so-called information raids, but he said that their failure in these raids has convinced them that the United States was in the war and that its influence would soon be felt, so much so that he said he believed that late dispatches from Germany indicated that Germany had awoken to the fact.

He gave an illustration of adjusting the gas mask, showing both the American and French types and he was convinced that the American was superior. He also brought a message from the men in the trenches that mail was the most acceptable thing that they received. He said don't get an answer, the men don't have time and are allowed to write only so many letters a week, but there is nothing they appreciate so much as the letters from home and friends.

He said that the men in the army were cheerful and confident, and ready to do their part if the people back home were willing to do theirs and there was no better way of letting them know it than by subscribing to the loan.

During the meeting the enthusiasm circulated through the crowd with subscription blanks and they picked up a good number of subscrip-

tions and they did considerably more in the theatre.

There was a very successful meeting at the Colonial theatre where there was a famous war picture being shown so that the audience were well keyed up to the meeting. Chairman Neal with Corp. Smith and the Naval band took their places on the stage and the lights were suddenly thrown on and the crowd gave them a great reception. The band played the Star Spangled Banner and here after an introduction by Dr. Neal, Corporal Smith gave a talk. He could be heard to a much better advantage in the theatre and while he said about the same as on the Square and again demonstrated the gas masks, he was followed very closely and at the conclusion was enthusiastically applauded.

The same program was carried out at the Olympia theatre and both were crowded, so that in all several thousand people heard him.

Today is the last day of the drive and while this city is well over the top it wants to double at least its quota and with everybody doing their bit it will be accomplished. The banks will remain open today and evening for final subscriptions.

Following the meetings Corp. Smith was given a reception at the Warwick Club and today he will visit the navy yard and talk to the workmen.

MEN FOR TWO DRAFTS SELECTED

The local War Board have the list of men who will be sent away in the next two drafts. On May 7th the six men who will train for special carpenter work will go to Tufts College. Three of these are volunteers and one of these was on the emergency list. The men who volunteered were Leon J. Roberts, Portsmouth, Garland F. Wynott, Rye, and Arthur J. Plaudman, Portsmouth. The other three are Edward Abbott Cole, Kingston, Myron L. Brown, Seabrook, and John H. Baker, East Kingston.

The eight who will leave for Fort Bliss on May 10th are all from this city with one exception, Thomas D. McLaughlin, who is registered from Rye, but comes from Cleveland. The list of men are Thomas MacLaughlin, Rye; John H. Fulvey, Rye; A. MacDonald, Cornhill; J. Kane, William A. Hennessey, Everett M. Bartlett, Daniel J. Sullivan and Owen J. Peasey, all of Portsmouth. Thomas D. MacLaughlin is a chauffeur for

Francis E. Drake at Rye beach. He is of Irish birth, but has received all exemption as an alien and accepted service.

The Local Board have not received notice of the May draft of 550,000 men from all over the country called for May 25, nor has this state's quota been assigned at yet. In addition there is another call issued for enlistment on May 17th for 6207 skilled men for the national army was sent out Friday by Provost Marshal General Crowder. All states are included excepting New Jersey. It affects the movement of the men on May 17.

The men represent about 75 occupations. They include chauffeurs, carpenters, engineers, stenographers, telegraphers, telegraph operators, wireless operators and welders. They will be attached to the medical corps, the gas defence service, the quartermaster corps, the ordinance department, the signal corps and the corps of engineers.

Dispatches from Washington are that at least half a million more men will be called by July 1 and this will make a big hole in Class 1 of this city in the drafts for May 7 and 10th none of the married men who were placed in class 1 by the District Board have been called as there is a petition pending for the reopening of their case and the men will not be called until it is settled finally.

TRADE AGREEMENT WITH NORWAY

(By Associated Press)
Washington, May 3.—Shifting of a commercial agreement by the Trade Board between the United States and Norway, provides for the furnishing of supplies to that country and the same time Norway agrees to place no restriction on exports to the United States. Norway also agrees that no part of the supplies received from the United States shall reach the Central Powers or that any part go to supply what is shipped to the Central Powers. The agreement was signed by Vance McCormick and Dr. Fritjof Nansen the famous arctic explorer, who is here on a special mission.

EXPECTS BIG GERMAN PEACE MOVE

(By Associated Press)
London, May 3.—In the personal opinion of Lord Robert Cecil, the failure of the Germans knock-out offensive on the west front will result in a big peace offensive, with the offer to be made directly at Great Britain, with possibly some attractive terms, but there will be nothing that the allies can look at. To the Associated Press he said that the offer would be mainly for home consumption and that German military leaders must do nothing to keep the people in line.

A WELCOME PLANNED IN ITALY

(By Associated Press)
Rome, May 4.—A bureau of welcome and information for American soldiers visiting or passing through here has been organized by the American woman residents. The bureau furnishes advice about the hotels, maintains a reading and writing room, and also undertakes to answer letters of inquiry written by relatives in the United States. Among the members is Mrs. Thomas Nelson Page, wife of the American ambassador.

MAY ORDER SPECIAL INVESTIGATION

(By Associated Press)
Washington, May 3.—Secretary Baker announced today that he is studying the report on the aircraft production by Gutzon Borglum the sculptor and if it is found that there has been a waste of money he will order an official investigation.

WANTS TO DOUBLE QUOTA

This is the last day of the third liberty loan drive and it is apparent that Portsmouth is going to do its full duty. Up to noon Friday there were \$32,000 received by the local banks, but of course considerable of this is credits for other towns as this city is the banking center of all of the surrounding towns. About \$600,000 is however credited to this city and by tonight it is expected that this will be increased by from fifty to one hundred thousand. The quota of course was subscribed

In the second week and the city has already the quota for a day's billion dollar basis, but it is hoped that it will at least be twice what the quota called for.

The navy yard is responding finely and the last day's drive promises to increase its subscription.

UNION HAS NEW QUARTERS

The Metal Trades Council of this city, met on Friday evening for the first time in their new quarters in Odd Fellows hall on Congress street. The Council which takes in a great many of the workers at the navy yard and shipping plants has been doing a lot of work and every meeting is interesting.

President A. L. Hartford at the meeting on Friday evening made a brief history of the growth of the Council and what they hoped to accomplish.

DECLARED AN ILLEGAL TRUST

New York, May 3.—The Victor Talking Machine Company was declared an illegal combination in the restraint of trade by the Federal court here today and the usual order for the dissolution of the company was ordered.

THIS STATE TO FURNISH 624 MEN

(Associated Press)
Washington, May 3.—With the announcement today of the call of 233,000 men from 45 states to be called this month, Secretary Baker indicated the scope of the government plans by stating that he would ask for \$15,000,000,000 for the army for the year, this not to include fortifications. Last year the appropriation was \$16,000,000,000.

The call for a quarter of a million men goes to all states with the exception of California, Oregon and Nevada, and these states had supplied so large a part of the quota that it was thought best to omit them from this draft.

In preparation for this big increase in the army it is understood that every cantonment would be enlarged and it is possible that some new ones may be built.

New Hampshire's quota for this May call will be 624 men to be sent to Camp Devens.

CAN NOT BE EXPLAINED

(By Associated Press)
Paris, April 4.—(Telegraph) strength, vigor and health filled with exuberance through the sheer joy of living a young soldier was walking in the beautiful bright sunshine yesterday afternoon.

On a street corner was an old man with shaggy hair, a few rags covered his emaciated body, holding out a greasy hat in an unwashed hand the picture of unselfishness. The youth dropped a copper coin into the old man's hat.

That suddenly and without warning one of those dreadful German shells burst with an ear-piercing shriek and the young soldier was instantly killed. The beggar escaped untouched.

MAKING THEIR OWN NEST

(By Associated Press)
New York, April 4.—You are conducting in Livonia and Estonia a regime of force which will cause a deep enmity toward everything that is German," said Deputy George Lo-

senburg, leader of the German-independent Socialists during a discussion of the Brest-Litovsk treaty in the German Reichstag on March 19, according to German newspapers. "We reject the treaty," he said. "The King of Prussia should become Duke of Livonia and Estonia were being handed by the Germans."

It is better because it has all others outdistanced for efficiency of design and handiness. The metal flour bin is easily raised and lowered for filling, without lifting a pound; there is an enamel front which pulls out, giving a large working area, eliminating crowding of utensils; there are convenient shelves reached without bending or straining; trays shoot out automatically; there is drawer room for every known kind of cooking or kitchen utensil. A roll-top front shuts out the dust and dirt. Everything is absolutely sanitary and easy to keep clean.

There are so many good features about the Sellers Cabinet that a personal visit is necessary in order to appreciate it. Our time is yours.

A Great Industrial Army Needed.

The talk of conscripting men to do farm work and other labor, of which there has been considerable, will probably amount to little. The country is at war and there is need that every strong hand should be busy at some useful occupation, but to draft men for the various fields of employment would be such a wide departure from anything ever attempted, and there would undoubtedly be widespread dissatisfaction, and the labor of an unwilling army of workers would fall far short of producing the desired results.

That many recruits to the army of labor are needed is beyond question. Under the existing conditions every able-bodied man and woman, and all young people of suitable age, should be busy. The war is not to be won by the soldiers alone. The people at home must produce and produce and produce as never before. This applies to all forms of production, but more especially to the productions of the soil.

But the only army that will carry on this work successfully is an army of volunteers, such as is called for by Henry B. Endicott, food administrator for Massachusetts, and one of his most active aids, James J. Phelan. Mr. Endicott says: "There is nothing so important today as the necessity for every able-bodied person to be employed at a useful occupation." Mr. Phelan expresses the same thought and speaks particularly of those who are financially able to live without work. He declares that such ability does not excuse them at such a time as this and that all ought to be willing to lend a hand in the work of production until the pressing need shall have passed.

There is sense and truth in these words and they should be heeded in every part of the country, which is engaged in the biggest and ugliest task that ever confronted it. The soldiers and sailors will do their part like the true Americans and patriots that they are, but they cannot do it all. They must have a backing at home without which their efforts and sacrifices would be fruitless, and if this country is to be all that it should be there will be no room in the country for idle hands until the stress has passed.

There is a thought here for those who may feel that so long as they are able to pay their way there is no further duty devolving upon them. All such should remember that an honest day's work in the field, the garden or the shop is as direct a contribution toward the winning of the war as is made by those who bear arms or sail the seas, even if less spectacular, and they should be up and doing.

It is to be hoped that great numbers of men and women and boys and girls will be able to see the matter in this light and gladly join an army that is as essential to victory as that which is holding at bay the most stupendous menace the world ever faced.

State-wide prohibition went into effect May 1 in a number of commonwealths, including New Hampshire, while in the local option states many cities and towns returned to the legalized sale of liquor after longer or shorter periods of forced abstention. If the "Nation-widens" have their way all this sort of thing will be done away with in the near future and states, cities and towns will have nothing to say about it. And if it comes it will be the greatest experiment in the regulation of the morals of the people ever undertaken in this or any other country.

The United States engineers have won their full share of glory on the battlefield. These men did not go to France to fight, but when the pinch came they were ready for the emergency and acquitted themselves like veteran warriors. The Germans will find out before this thing is over with that an American is an American whether he be an engineer or a soldier.

The time is at hand for the annual clean-up of streets, yards and premises generally, and communities having the requisite amount of pride and a proper regard for health conditions will not neglect a duty that should be imperative at this time of the year.

Swimming is now to be taught to the soldiers in the training camps, and this is entirely proper. It ought to be taught to every boy long before he is of military age, and to the girls, too.

President Wilson has done well in signing a bill which compels women aliens to register as well as men. There are large possibilities for mischief in some women.

It has been decided that hereafter the railroads must pay the regular market prices for their coal. Is there any good reason why they shouldn't?

EDITORIAL COMMENT

Like Caesar, Not Ambitious

(From the Cleveland Plain Dealer.)
The Kaiser has been asked by his Reichstag to accept the crowns of Bohemia and Livonia, but maybe he is too modest to do it without considerable urging.

Another "Failure"

(From the Detroit Free Press.)
The German report says the British attack on Zeebrugge was a failure, which is probably the reason Berlin is removing the admiral in command of the port.

Will Have to Advance Several Paragons

(From the Brooklyn Eagle.)
Xenophon F. Willey gets into the United States Senate from Missouri. No Xenophon was ever there before. If his Analysis continues he will get on the Military Affairs Committee, and nobody in Missouri will be a bit surprised.

Short Span From Babe to Man

(From the New York World.)
In the Spanish War, William McKinley was President. William McKinley Hurley, one of the first boys in New York State named for him in 1886, wins the Croix de Guerre in France. They grow up quickly, the babies.

"Who Lies With Dogs Gets Up With Fleas"

(From the Baltimore American.)
Germany's allies are reported to be growing discontented with what is to be allowed them of the spoils of war, as they are to have very small pickings. If they expected fair and equal treatment from their big partner they are now getting exactly what their misplaced confidence in the champion treaty-breaker deserves.

Verboten

(From the New York Herald.)
Hindenburg has had thirty days of grace added to the date he promised the German people he would be in Paris, and is practically as far from his goal today as he was when he gave his promise. It can be said for the ruffian of the wooden image, however, that he hasn't yet equaled the Kaiser's record for Parisian dinners missed.

Watch! Watch! Watch!

(From the New York Herald.)
This country has its Bolos. German money has been planted here in large quantities. Now that Prussianism has decreed a new peace offensive that money will be expected to bring results.

It is the duty of every loyal American to cooperate with the Government in running to earth every form of defeatism and the persons participating in it. Watch the pacifist, watch the whisperer, watch those publications which show themselves engaged in the same game as that of the Honorable Rouge.

"The condition upon which God hath given liberty to man is eternal vigilance."

An Ideal Fighting Chaplain

(From the Brooklyn Eagle.)
There is a chaplain at Alameda who says he expects to be in France in a few weeks. "When I am not praying in the front trenches," he says, "I shall be filling in my time shooting Germans, and the shooting will be as religious as the praying." We hear a lot about the few pacifist clergymen; like the lost sheep, they receive most attention. The ninety and nine priests and ministers are praying and fighting shoulder to shoulder with their boys. Killing barbarians, the murderers of women and children, is a highly religious act. We are most fortunate in having these fighting persons preaching the glory of sacrifice and putting their own bodies into the breach as a testimony of their faith.

A Fable

(From the Hartford Courant.)
The case of the New York, New Haven & Hartford Railroad is like that of a small boy whose abuse of his ruminant has displeased his father. The boy needs a new suit of clothes, part of the suit he has being gone and the other part torn and full of holes. The father believes that the boy has disposed of the missing part of his suit for gain and that he has been unwarrantably careless as to the other part. "You do not deserve a new suit," he tells his son. "You have tried to get personal profit out of the one you have, and you are guilty of extravagance, carelessness and bad judgment. Still, you are almost naked, and for the sake of decency I am going to rectify you. You ought to be punished instead of being rewarded with a new suit, but there is nothing like to be done." That is about what the Interstate Commerce Commission says to the "New Haven" as it gives the road permission to increase its passenger and classified freight rates.

More Work For More Women

(From the Detroit Free Press.)
The withdrawal of a million and a half American boys and men from industry has already made the need for women to take their places a great and pressing one. The absolute certainty that another million of men and perhaps more will be called upon in the near future will give even the most thoughtless some slight idea of the dependence we must place upon the women in the months to come.

To many women, the fact that they should be expected to work comes as a shock. Before they can bring themselves to see the justice of the thing there will have to be a radical mental readjustment. But after all it is really little enough that is asked of even the most delicate. Compared to the sacrifices and inconveniences of their husbands, sons, brothers and sweethearts even the most arduous of duties that can be imposed upon the women who remain at home is not demanding more than should be freely offered.

THE NATIVE ALIEN

If he to tribal rule adheres
The Indian can never become
A citizen, through all his years
Of living in his native home.

The only aboriginal,
And yet he is by law debarr'd
From privilege that Slav or Gaul
May earn, nor find the earning hard.

Five years of residence suffice
The stranger from across the waves,
But for the Indian the price
Is far too high, though to the graves

Of fifty generations he
Can point with a descendant's pride;
All in their tribal loyalty
Had firmly lived, as firmly died.

He will be as his fathers were,
Their tribal customs still his creed,
Which he would not for worlds fore-
swear

To be politically freed.
It's quite beyond the Indian
This complex state to understand,
To find himself beneath a ban,
An alien in his native land.

SALVATION ARMY NOTES

Ensign Beech of Dover gave an able lecture on "Illumined Cathedrals in France," on Thursday evening at Salvation Army Hall. A good sized audience was present. Ensign Beech, who was formerly in charge of the local Salvation Army work, left here nearly two years ago having been assigned to duty at Framingham, Mass., and later at Dover.

An open meeting was held by the Salvation Army in the square at Kittery Friday evening previous to the lecture at the Methodist church. Mrs. Lawrence, wife of Captain Lawrence who gave a talk on the Salvation Army in the world war.

The Mission Band from Dover, a men's organization is to take part in the meeting at Salvation Army Hall on Sunday evening.

Mrs. Lawrence will speak on the "Salvation Army in the United States" on Wednesday evening of next week at the Christian church in Kittery and on the following Friday evening in Eliot. She will talk on "The Salvation Army in the War."

The Girl Guards of the Salvation Army are meeting twice a week for Red Cross work and occasionally three times.

MINSTRELSY "MADE IN AMERICA"

Negro minstrelsy is a form of entertainment absolutely native to our shores. It was conceived by our own countrymen and each generation since its inception has fostered and nourished it till today, after a period of more than half a century of active life its characteristic qualities of genuine mirth and melody appeal to the heart and emotions as does no other form of "playhouse entertainment." Its true interpretation is never dulled by age; its clean, wholesome atmosphere is as healthful and beneficial to the mind as the breezes of sea and mountain to the body. Yes, minstrelsy is an American institution and who of us is so proud of it? The 1. A. C. minstrel follows the lines as laid down by the leaders in the craft of minstrelsy, and presents a performance brilliant in execution and artistically perfect in execution. Portsmouth Theatre (Musical), Tuesday and Wednesday evenings, May 14 and 15.

CAN'T COME TOO SOON

It is said that the joint bridge commission of Maine and New Hampshire will recommend the construction of a new million dollar bridge across the Piscataqua river between Portsmouth and Kittery to take the place of the present wooden passenger bridge. Each state to pay \$500,000 and the federal government \$1,000,000. It would be a good idea to hurry the project along and get the new structure completed before the spring ice gets another whack at the wobbly old structure. —Somersworth Free Press.

ARMY OF 6,000,000 IN TWO YEARS

Washington, May 3.—Secretary of War Baker and Major General Peyton C. March, acting chief of staff, told the House Committee on Military Affairs today that America's Army would be increased by approximately 500,000 men before July 1, next. While not going into the details of the administration's war program to appropriate \$15,000,000,000 for an Army of 3,000,000 men during the fiscal year ending July 1, 1919, the witnesses declared that the strength of the Army would be increased within the next two months from approximately 1,700,000 men and 120,000 officers to 2,168,000 men and 130,000 officers. More over, it was intimated that if transportation facilities stand the strain the committee will be asked, when it meets next November, to take up the Army appropriation bill for the fiscal year ending July 1, 1920, to provide for 3,000,000 additional men. The tentative arrangement has been made to make 6,000,000 the minimum strength of the Army two years hence.

Secretary Baker told the committee at the outset that 3,000,000 men for the fiscal year of 1919 was only the starting estimate. He said that as soon as it becomes apparent, through improvement in the shipper and equipment situations that more men can be trained or sent to France during the fiscal year, the estimates will be increased. However, he questioned whether additional estimates could be made before late in the fall or early in the winter.

Today's session was devoted largely to taking up the appropriations as submitted by the secretary yesterday. He said before the hearing that it was "substantially correct" to say that the appropriation would total \$15,000,000,000. The meeting today revealed that appropriations for some divisions of the War Department have been doubled and tripled. Especially is this true of the ordnance office. The department has decided greatly to increase the artillery programme.

The secretary gave the committee the estimates for the various branches of the department. A large part of today's conference was devoted to the quartermaster corps. Mr. Baker said that no new cantonments would be built, but that several cantonments would be enlarged, especially cantonments in the east which are near embarkation ports and which can be used as replacement stations.

The committee will give a day to each branch of the department. It hopes to report to the House before the end of next week. Monday will be devoted to the ordnance office. General March will outline the artillery programme personally. He was an artillery officer before the war began, and until he came to Washington as acting chief of staff a few months ago, was in charge of all American artillery in France.

The airplane situation will be discussed on Tuesday. A few minutes of today's session were devoted to airplanes. Members of the committee said that Secretary Baker admitted that there has been delay in making airplanes, when asked if reports that the airplane programme had fallen down were true. Asked if the Liberty Motor was a failure, as reported, the secretary said to have replied that the motor "is so good that England and France are seeking contracts."

A question which commanded the almost undivided attention of members of Congress today was whether the Administration's request that the President be given unlimited authority to increase the nation's fighting force to any size he may see fit would be granted. While opposition developed rapidly this morning even among leaders who are advocating increasing the strength of the army to 5,000,000 men, few would predict that limitation would be imposed when the matter actually comes to a vote; it is quite possible that a limitation of some kind will be written into the bill if a vote is reached this week, but opposition may melt away by the time the Committee on Military Affairs reports to the House.

OUTLOOK FOR "NEAR BEER" IS DUBIOUS

Enforcement of Prohibition Law Up to Local Authorities.

Concord, May 4.—Instructions as to the enforcement of the prohibitory law were given to the selectmen, sheriffs, police heads and judges of municipal courts, at a meeting in the general committee room at the state house Friday. The meeting was called by County Solicitor W. W. Thayer, who outlined the law and was followed by Attorney General Oscar L. Young and State Law Enforcement Officer Jonathan S. Lewis, the father of the law.

Efforts to get instruction regarding particular sections of the law, notably the near-beer which have been declared taboo by Chief Healey in Manchester and County Solicitor Eaton in Nashua did not get anywhere. Attorney General Young who is the official adviser of Mr. Lewis, contented himself with the general statement that the law prohibits the sale of rum in New Hampshire and that it is the duty of the officers to see that the prohibitory law is enforced the same as any other law.

General Young said that there was an apparent desire to get rulings in order to show methods of evading the law but he did not consider that the province of the state law officers, Mr. Lewis said that he did not propose to interfere with the efforts of city and county officials to enforce the law and that he would lay down no rules for their guidance. So long as local officers were earnestly seeking to enforce the law, he would be satisfied. It would be time for him to step in with the state machinery when there was a lack of interest shown by the local or county officers.

There were about 50 per cent of the meeting and all sorts of questions were asked the attorney general and Mr. Lewis, indicating a desire to do their duty on the part of those charged with enforcing the law. If there was apparent some objection as to methods of procedure, County Solicitor Thayer urged that all towns in the county should immediately appoint prosecuting officers, under the provisions of the Lewis law.

As the law was interpreted by Mr. Lewis and County Solicitor Thayer there are serious prospects ahead for those who have it in mind that it is a simple matter to drive over the line to Lowell, Haverhill or other wet spots in Massachusetts and stock up for home consumption. While the state law does not prohibit this, there is a federal law which does look with disfavor on the transportation of the liquor into no-license territory, and a hint on the hip or a case in the bottom of the automobile was construed by Mr. Lewis and Mr. Thayer as constituting interstate commerce.

No action has been taken in Merrimack county thus far towards stopping the sale of 1 per cent or less alcoholic drinks, but Mr. Lewis said today he did not believe the apparent conflicting clauses actually in conflict. He expressed the opinion that the various descriptions of alcoholic drinks preceding the clause in which Chief Healey and County Solicitor Eaton based their action, that saying no beverages containing any ingredient that is intoxicating could be sold, was merely a blanket proposition cutting out the alcohol included in the preliminary description any others that might have been omitted. Such things are not uncommon in legal verbiage, Mr. Lewis said.

Anyways, the outlook is dubious for those seeking potent drinks. The only city which voted to have liquor agents is Manchester, and the only towns are Fitzwilliam and Stratham.

RESCUES CHILD FROM RIVER

Italian Boy Who Had Fallen Overboard, Saved by Timothy Kiley.

What came very near being a drowning accident this forenoon was averted by the presence of mind and heroic action of Timothy Kiley of Bow street who rescued a child who had fallen overboard from the wharf on Ceres street in the rear of Coleman's antique store.

Mr. Kiley, who had been sent down to the wharf on a business errand, hearing the screams ran to the edge of the wharf only to see the child in great danger. He immediately jumped overboard from a boat tied to the wharf and grasped the helpless child as it was going down the second time.

not managed to catch hold of the boat again and place the urchin in safety. The little fellow, an Italian child, aged about ten, was taken to his home on Deer street in an automobile after a severe fight.

His rescue received the approval of the onlookers, who realized that quick action only was what brought the child safely to land.

A number of young children have the habit of playing in this vicinity and should be looked after or a drowning is likely to occur through their recklessness.

SPENT MUCH FOR PENSIONS

London, March 155.—The first account of the Ministry of Pensions for the year ended March 1917, shows an expenditure of 1,179,270 pounds, of which 612,963 pounds was for pensions and gratuities for warrant officers and men of the army and 320,002 pounds paid to widows and children of those grades.

WILL HAVE COMMERCIAL TREATY

New York, May 4.—The peace treaty concluded between Austria-Hungary and Russia contains a clause which binds the two countries to enter into negotiations for a commercial and shipping treaty as soon as possible after the conclusion of a general peace, say German newspapers. Russia, and Austria-Hungary also agree not to continue in economic or financial war after the fighting is ended.

WILL GROW WHEAT AT NO. HAMPTON

Newburyport Men Will Plant 40-Acre Field of This Grain.

Wheat growing on a scale unusual for this section is being undertaken by George B. Stedney of Newburyport, who has leased a 40-acre field of David J. Lamprey, at North Hampton, to be sown entirely to wheat. A tractor and other modern appliances are used in preparatory work. Mr. Stedney will also have 20 acres in wheat on his Newburyport farm.

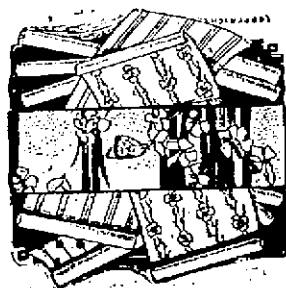

OBITUARY

Lester W. Thompson

The death of Lester W. Thompson, a well known local business man, occurred Friday night at the home 55 Hill street at the age of 54 years. Mr. Thompson has been in poor health for some time, but was down town for the past two weeks, but was down town for a short time yesterday. At his home in the afternoon he suddenly became worse and was unconscious from then until the end, dying in the arms of his son, Leon Thompson. Mr. Thompson has been a resident of this city for the past 18 years, coming here from Sanford, Me. He has been engaged in the liquor business on Market street for several years. He was a member of the Franklin Pierce Veteran Firemen's association, the Fraternal order of Eagles and the Masonic lodge of Sanford, Me. He was a man of genial, kindly nature and had many friends. MOVIE "BAD MAN" TO WED

(By Associated Press)

Los Angeles, May 4.—As a result of a sentimental correspondence which started about six months ago, William B. Hart, "bad man" of the movies, will wed Miss Margaret Evans, daughter of a millionaire cattleman of Butte, Mont. Although they had been corresponding for some time the couple did not meet by formal introduction until recently when Hart spoke in Butte for the Liberty Loan.

NEWINGTON

Newington, May 4.—Mr. Clarence Peterson and family of Portsmouth passed Sunday with Mrs. Elizabeth Coleman.

Mr. and Mrs. Robinson of Portsmouth were in town recently.

Miss Ida Nutter, mother of Franklin hospital, passed a few days with her sister, Mrs. M. E. Coleman, last week.

The work is being pushed on the Newington and Dover Joint Bridge. Housing sheds have been built near the Newington depot to accommodate the workmen.

The building of the ships at the ship yard is being rushed and a night force and a day force are at work all the time. The keels for ten ships are laid and it is hoped that the first one will be launched by July. Several new cottages are being built for the workmen and their families.

Mrs. Rosamond Packard attended the funeral of her uncle, Mr. Charles Paul, at South Blot on Tuesday.

The marriage of Miss Viola Hoyt of this town and Mr. Earl Chase of New Bedford took place at the home of her sister, Mrs. Everett Hanson of Mattapoisett, Mass., on April 21. Only the families of the contracting parties were present. After the ceremony was performed a dainty lunch was served the guests. Their many friends wish the bride and groom many years of happiness.

The death of Mr. Charles Hodgdon occurred at the home of his son, Mr. Albert Hodgdon with whom he lived, on Monday. His son and wife have tenderly and faithfully cared for him during his last sickness and also in making him happy and comfortable during his last years. Mr. Hodgdon was well known and esteemed by all who knew him. He had a kind heart, and whenever he could he gave a helping hand to those who had been unfortunate. His funeral was held at the home on Wednesday afternoon. Mr. Hodgdon officiated and Mrs. Priest of Portsmouth sang. Five sons, a daughter, a sister and brother are left to mourn his loss. The sympathy of the community is extended to the children and their families.

Mrs. Ann S. Fink observed the 31th anniversary of her birth on April 30. She is still in fairly good health and days when she feels nicely in active and cheerful as ever. The room where she entertained her callers and evening guests was prettily decorated with flowers in the bay window, which was pleasing to the eye. She received calls from her friends during the day and in the evening a family reunion was held, four generations being present, and all enjoyed the evening. The daughter, Miss Ruby Fink, with whom Mrs. Fink resides, served a dainty repast to those present, and on returning to their homes each hoped that another year would find them collected together again to celebrate another such occasion.

Mr. Cyrus Fink took his mother for a drive on Sunday around by the way of the Newington depot and the ship yard. She was much interested in the changes that had taken place on the river road.

Mrs. Altha Foss of Ite is passing a week with her mother, Mrs. Harriet Hoyt.

Mrs. Pearl Foss of Portsmouth was in town on Wednesday to attend the funeral of her brother-in-law, Mr. Charles Hodgdon.

The farmers are hoping for warm weather so that the earth will warm up and they can begin their planting. Farm labor is scarce and those who can procure help are fortunate.

GERMANS GIVE UP YPRES OFFENSIVE

(By Associated Press)

Having met with a reverse in their operation on the northern side of the Flanders salient where the French and British have stood in defense of Ypres and the high ground, which forms the defense of the channel port, the Germans have not apparently turned their attention to the southern side of the salient.

On Thursday night and Friday the German artillery have been heavily bombarding a certain line between Givenchy and the Nègre forest and it is very probable that the enemy will soon launch an attack upon this vital section of the line.

Dispatches from the British headquarters tell of the heavy bombardment in the Lys district which may be taken as that part of Flanders near Merville where the Germans made their greatest advance after the fall of Arras.

Articles appearing in the German papers indicate an effort to prepare the German people for an announcement of the failure of the Ypres attack, as the papers claim that there would be no great value in taking the ruined city of Ypres. Experts writing in what looks like inspired stuff, say that nothing may be gained by its capture. This may mean that German may turn her attention as the bombardment indicates to other parts of the line with an idea of forcing through or making such headway that it would force a retirement from the Arras-Lens sector.

So far as known there has been no infantry action in this part of the line. While waiting for the Germans to make the next move the allies are not idle, but all day their patrols have

been holding the German lines at various points.

At Hunkard and Villers-Bretonneux before Amiens they have taken several tactical positions among them is hill No. 52, north of Caestre heights which afforded a good observation post over the allies' communication lines.

The British admiralty have found that the channel at Zeebrugge, which was raided by the British naval forces and concrete laden old cruisers sunk in the main channel of the German submarine base, is still blocked and will remain so for some time in spite of the efforts of the dredgers to make a new channel around the obstruction.

German troops in Ukraine have advanced into the Donetz coal regions in eastern part of Kharkov. The presence of Germans so far east indicates that the control of southern Russia and the Black Sea is in the hands of the Germans.

The authority of Gen. Doeh the allies commander-in-chief, has been given authority over the Italian forces, as a result of the interallied meeting at Abbeville.

HIGH SCHOOL PLAY DEERING HIGH TODAY

The high school team plays the Deering high of Portland at the play ground this afternoon and a good game is expected. Last year the Deering high won in the best game of the season by a score of 3 to 2 in a ten inning game, but today the locals hope to return the compliment.

There has been a very small attendance at the games so far this season and it is hoped that there will be much larger today. The local high school team needs the support of the fans both financially and morally and there should be a good attendance today. There is good interest in the local team and they can play good ball with proper encouragement.

SPORT NOTES OF INTEREST

Captain Robert A. Brown of the Williams football team is one of the thirty men named from the college to attend the fourth officers' training camp at Camp Devens. Brown has played end for two years.

A boxing card was given in Berlin, N. H., last Wednesday night. The feature was a ten round bout between Bob Gordon of Berlin and Eddie Flynn of Peabody. It was a fast bout all the way through and resulted in a draw. The preliminary bout was between Young Attila and Young Travers and was called a draw.

Franz Marceau, Dartmouth miller, who made it interesting for John P. Jones and Norman S. Fisher six years ago, and whose home was in Quincy for many years, has enlisted as a chief yeoman in the navy at Chicago. He holds the Central A. A. U. record for the mile until it was broken by Eddie Hall last year.

Warren T. Hobbs, the Worcester boy, who gave such wonderful promise as a hurdler at Dartmouth, is dangerously hurt in the American hospital at Paris. He is attached to the flying corps and his airplane went out of commission. He and his machine landed in a heap after he had been over the German lines.

In a round-up of slackers made at Detroit recently, George Peterson, Willie Hoppe's billiard partner, was collected in the net. Peterson had a hard time explaining that he was far beyond the draft age until he took off his hat. Then they were convinced.

Another former Dartmouth athlete flying "over there" is Milton Ghee, the sensational quarterback of the Green eleven of 1914. None who saw Ghee play football could doubt that he would make a great soldier. For twisting, squirming and fighting his way through a broken field against seemingly impossible odds he was a wonder. —Bob Dunbar in Herald.

John Kilous has gone to Norfolk, Va., where he will wrestle several matches. For the sake of John's cauliflower ears let's hope there ain't no more Goulette's down that way. —Leviathan Sun.

Sergeant Earl Caddock of Camp Dodge, heavyweight wrestling champion, Wednesday night at Cedar Rapids, Ia., won two straight falls from John Freberg, champion of the Swedish championship.

The first baseball game ever played in Spain took place on April 30 between a Spanish and an American team and resulted in the defeat of the Americans by a score of 22 to 12.

WOULD CONNECT CHICAGO WITH NEW YORK

The Type Used in One Year to Publish Endorsements of Doan's Kidney Pills

Of the many kidney remedies on the market today, none other is recommended like Doan's Kidney Pills. Fifty-five thousand benefited people testify in the newspapers of their own towns. Forty-five thousand American newspapers publish this home proof of Doan's merit. The type used in one year to tell this wonderful story would make a solid column of metal twice as high as the world's highest mountain. Placed end to end the lines of type would reach from New York to Chicago. These miles of good words told by 50,000 tongues sound glad tidings to any Portsmouth sufferer who wants relief from kidney and bladder ills. Here's a Portsmouth case. Don't experiment. Use the remedy endorsed by people you know.

D. J. Holland, barber, 18 Vaughan street, says: "From being on my feet continually, my back became very stiff and lame. Sharp pains ran through my kidneys and caused me intense suffering. I used Doan's Kidney Pills on a friend's advice and had excellent results. They corrected the action of my kidneys and relieved the pain."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Holland had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

The L.A. team had lost its captain, William Olinaby, U. S. N., formerly of Brown University. Captain Gonzalez led the Spinners.

Transfers of the national army men from Camp Devens to other camps have upset the star golf team of the 70th division, built around Sergeant Francis Olinaby, eastern amateur champion as leader. Lieut. Ray Gordon, one of the strongest of the team, already has left for duty at a southern cantonment, and Sergeant Chris Dunphy is soon to enter a southern school for the quartermaster's department. Gordon and Olinaby were to have been paired up for several exhibition matches in the vicinity of Ayer during the summer.

At Bath, Me., last Wednesday night Danny Dunphy knocked out Dusty Kroll in the third round. While it lasted, it was one of the best bouts ever seen in the Maine city. In the main bout Danny Dunphy of Brooklyn, N. Y., handed the sleep punch to Harry Ah Chung of Salem, Mass. This bout lasted four rounds. Harry Ah Chung has boxed in this city several times and on his last appearance here, about two years ago, he was defeated by Chic West.

Phil Beaudette of Biddeford and Bobby Dobbs of Old Orchard are booked to wrestle at Biddeford, Me., May 17. Dobbs has had years of experience in the wrestling game and since locating at Old Orchard has given the place quite a reputation as a health resort. Wladek Zlysko and other well known mat men make Old Orchard their home during the summer months.

Ivan Linow, the most aggressive of the heavyweight wrestlers, may be given the chance to meet Stringer Lewis when the latter is in Boston the latter part of the month.

Challenge—I am willing to wrestle Joe Blais any time for any kind of a purse. (Signed) Louis Myskovskij, St. Louis can have our purse without bothering to wrestle for it.—Lewiston Sun.

ON THE DIAMOND

Boston has seen Sunday baseball and the heavens have not fallen. Rather, we think, they are a finer blue for the experience. Next Sunday boys from the navy yard and Camp Devens will play at Braves Field. There will be a big crowd to watch them. It will be good for the boys who play. It will be good for the boys at the navy yard and at Camp Devens who will feel fresh their live contact with the agreeable things of life apart from war. It will be good for the thousands of onlookers, who will come closer thereby to the young men who are in preparation for the stern work of war across the seas, and it will be good for these onlookers, too, to feel that they have had an inspiring Sunday among good surroundings.

We know there are many persons who deplore this departure from the old New England Sabbath. Their prejudices are entitled to respect. That Sunday should be a day apart from other days, that it should retain a peculiar significance for contemplative regard for the immensities of the world's eternal purpose—these conditions may not be dismissed as trivial.

But we live in an age of complexities and vexations and we find necessary many departures from the old-day simplicities, admirable though they have been. Our transportation systems, steam and electric, our motor travel, our restaurants and hotels, our Sunday newspapers, our bakeries and our countless relaxations, or business necessities that may not cease, all have contributed to the problem of observing Sunday as a day apart, yet a day of human activity within limits of honest sobriety.

Sunday baseball is much restricted. It is for the men of the army and navy. It is played without commercialism. There will be many who do not like it. There will be many times more who approve.—Boston Record.

One of the distinctions wrenched from a reluctant fate by the indomitable Connie Mack is that of being the only leader in baseball history with nerve enough to defy home fans by selling popular players.

Only recently was presented the spectacle of Branch Rickey worrying himself sick over the problem of what to do with a fabulous offer for Hornsby, a player who may prove to be over-rated or who may be caught in the draft age ere the 1918 campaign is over.

Common sense told Rickey that the absurd money offer ought to be snatched up without debating the matter for more than a wink's time. Yea fear that the fans would accuse him of wrecking the club's pennant chances forced him to put all thought of selling Rogers into the background against his better judgment, it may be.

No such sagaciousness was to be found in the human element from Philadelphia. Connie swung his mace on a world's championship machine and wrecked it before the very eyes of the astounded mob. He has continued to dismantle it ever since, has denuded it of almost the last vestige of its former greatness. He survives, he has a bank roll and owns an inexpensive team and will be financially fortified better than most of his rivals if the worst comes because of the war.

However, Connie had his clientele on the grip when he smashed and

SUNSET LEAGUE ORGANIZED

The annual meeting of the Sunset League was held on Friday evening with delegates present from all of the clubs and the following officers were elected.

President, F. W. Hartford.
Vice president, Jeremiah Lyons.
Secretary and treasurer, Allan H. Robinson.

It voted to open the league on Monday evening, May 20th, at six o'clock and to play seven inning games. Walter S. Woods was elected umpire in chief and Christopher Heffernan umpire on bases.

The following teams have entered: Army, from Fort Constitution and training camp; Navy, from the navy yard; all branches; Portsmouth Athletic Club, Knights of Columbus, Y. M. C. A. and the Morley Button Co.

The base ball grounds will be put in first class condition and some good teams are expected to be made up.

battered down this great ball club. He knew before he began the destruction that there was no comeback at him because of a third and even less enviable distinction (that had attached to his Athletics)—that of having been the only world's championship team in modern history to go through the season a money loser.

Back into the teeth of the Philadelphia fans Connie hurled it when he approached for breaking up his team.

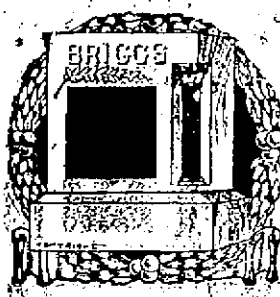

"What do you care?" he snarled, "I gave you a world's championship club and you wouldn't patronize it." No St. Louis club owner, about to sell a star, would have the moral support of a similar heap of popular interest to fall back upon. St. Louis fans have always given St. Louis clubs splendid support at the highest encouragement. That's why Rickey decides to keep Hornsby instead of the \$25,000 more or less—that Weegman threw on the table.

The Providence Journal says that Harry Lord, who is under reserve to the Providence club of the Eastern league, will be either traded or sold, as he doesn't care to play in Providence. Harry has an offer from the Rochester club of the International league and it may be that Providence contemplates disposing of him to that club.

Portsmouth High Flag to Have
63 Stars for Its Graduates
in Service.

Principal Dunfield of the Portsmouth High school talked with a Herald reporter this morning and said that plans are under way by the present high school pupils for the unfurling of a service flag in the near future.

The funds secured through the production of the recent junior play will be used toward purchasing the bunting and the flag will be made by the girls of the Domestic Arts Department of the school. There will be 63 stars in the flag, that being the total number of former students who are at the present time in the service of their country.

A record of all of these men together with their rank and present station has also been compiled by the students and is kept in the principal's office.

REST CAR SENT HERE FOR PASSENGER CREWS

B. & M. Provides Fine Temporary Quarters for the Employees.

For the accommodation of passenger train crews the Boston and Maine railroad has placed a rest car at their service in Portsmouth and such a car

is much appreciated by the men in this branch of the service. This car, built especially for the men, comes right from the shops and is located on one of the sidetracks just west of the depot. It will accommodate eight or more men and is appropriately equipped. Nearly everything that goes with a modern home can be found there in the culinary and sleeping quarters. This is the second car of the kind which the railroad has placed here, the other being located at the roundhouse and is used by the men of the motive power department. The Portsmouth car for passenger men is said to be the best of any sent out so far and fills a long felt want among the trainmen, especially in cases where spare crews are unable to obtain rooms, etc., in the city.

The men take considerable pride in their temporary home on the rails and the Boston and Maine made no mistake in establishing such cozy quarters for them.

ALONE IN ROOM SUFFERING WITH PARALYTIC SHOCK

York Man Found Twelve Days
After He Had Been
Stricken.

A sad case is reported from York in the death of John E. Dowd, a plumber, who has resided there for 25 years or more. Deceased was found in his room suffering from a paralytic shock and had been in that condition 12 days unknown to his friends and neighbors.

Mr. Dowd has been an occupant of a room in the Reddy building for several years. By habit he was very quiet and it was not unusual for him to be absent from his room a week or more, in Boston non business. Failure to be about the building or on the street did not arouse any particular suspicions, until Wednesday when repeated knocking on his door failed to get response. An electric light had been burning in the room continuously, but at course only showed nights, which led many to believe that he was all right. Wednesday, however, about 7:30, the Editor of the York Transcript noticed that the light was burning and as it was still daylight, suspicion was at once aroused that Mr. Dowd was ill. Communication with E. E. Hobson, owner of the building, resulted in Mr. Hobson entering the room where Mr. Dowd was found. Dr. F. W. Smith was summoned, and found that the unfortunate man was suffering from a severe shock, the right side being paralyzed as well as the throat.

Newspapers found in the room bore the date of April 19, and it is known that Mr. Dowd has not been to the postoffice since that date so that ten or twelve days elapsed from the time of his illness until he was discovered. Everything in the way of medical aid and care was given the unfortunate man but he failed to rally and passed away the following day after he was found in the room.

TAKES HALF INTEREST IN CONGRESS BLOCK

Dairy Lunch to Be Opened
Where Hoyt & Dow Store
Is at Present.

Andrew Jarvis, proprietor of the Nichols confectionery store, has taken over a half interest in Congress block. The Hoyt & Dow stationary store will be moved to the store adjoining the George B. French Co., on Market street. A dairy lunch will be fitted up to take the place of the Hoyt & Dow store which will be under the management of Mr. Jarvis. The transfer of the property to Mr. Jarvis was completed on Friday evening.

Mr. Jarvis has been successful in his enterprises since he came to Portsmouth and he expects to have a restaurant that will be a credit to Portsmouth. Extensive alterations will be made in the building.

THE HERALD HEARS

That it is a question whether near-beer is too near beer.

That more than one man in Portsmouth would like to know where he stands on this thing.

That many a married man thinks he gets a mate when he gets married.

That after the honeymoon is over he finds out she is a candidate.

That the baseball game on Wednesday next for the Red Cross will be as good as managers and players can make it.

That Portsmouth must be considered by the postal authorities in the matter of sub-postoffices.

That hundreds of empty packages are coming back daily to the local brewer since the closing day.

That several men are still employed at the plants clearing up and storing the packages.

That the local freight house of the Boston and Maine is doing an enormous business.

That some people who will absolutely refuse to carry a package of pins home from a store, and insist on having them delivered by the store keeper, think nothing of yanking all over the city with a knitting bag as large as a small trunk.

That the Vaughan street residence of Mrs. Annie Penney has again gone into new hands and was purchased a few days ago by Manchester people.

That some of the rockless auto drivers and joy-riders should be in the trenches moving down Hons, instead

of helpless children, deaf and absented minded people on the highway.

That it is claimed that the American people eat more than they need.

That this report certainly did not start in some boarding house quarters.

That the picture hats among the women appear to have been shelved.

That the interest was lost when they were not allowed to wear them in the theatres.

That the Atlantic Corporation is now running the largest auto truck in this city.

That nearly 600 cars are waiting repairs at the Boston and Maine shops at Concord.

That there has been some built at the navy yard for the past week.

That it was the real bull given by a workman to help the Liberty Loan and warwork and his bulshp brought over \$300 on the chance tickets sold at 10 cents each.

FREEMAN'S POINT NOTES

Mr. Downton not only conducts the employment bureau but will also have charge of the welfare of all employees. He takes much interest in athletics and plans a strong baseball team. Former Captain Ira A. Newick of the P. A. C. will undoubtedly be at the head of a nine known as the Atlantic Corporation team.

The immense oil tanks which were formerly digesters in the paper mill have been located and will soon be filled with fuel oil.

General Manager H. C. Haynes with members of the housing committee spent several hours yesterday going over the housing site.

The opening of the hotel which is known as Glory Hotel, is proving very valuable for housing many of the new men.

Several new sidings are being built on the grounds.

A Boston and Maine shifter is now stationed at the plant half of each day.

A train load of steel is expected on Wednesday.

The building at the extreme end of the plant in the direction of Newington has been fitted up as an automobile garage.

The building movers are having great success in moving the large office building. It has already been moved several feet.

AWARDED DAMAGES FOR INJURIES

A. C. Davis of Portsmouth
Wins Verdict Against
Lewiston St. Ry.

A verdict of \$298.14 for A. C. Davis of this city, against the Lewiston, Augusta & Waterville Electric railroad was rendered in the Supreme court Friday. The suit was to recover \$500 for damages alleged to have been received in a collision of two cars at Hallowell, Aug. 29, 1917, in which 15 passengers were injured. One of the cars was set on fire. The company admitted liability and the only question was the amount of damages.
